## the winery

*In our small familiar winery, we create wines in an artisanal way, minimizing intervention and always using common sense and heart to reach harmony.*

*We are located in Manchuela region where we are recovering and working with our local varieties to enhance our special values. We defend our heritage keeping our old, dry farming bush vines, also managing them in a sustainable way. We invite people to share our passion for making wine through visiting our winery. Also we are "children friendly" so we offer an unforgettable family experience.*

*deep respect for:*

*the land,  
the people,  
the vine, the  
grape, the  
wine, for you,  
for me, for  
everything*

*high vibration wines*

*alchemy,  
purpose  
and energy,  
natural,  
biodynamic,  
bach flowers,  
reiki,  
astrology*

*minimizing the use of additives*

*"mind and  
body healthy  
after  
enjoying  
gracias  
wines"*
