

story

SOY

Natural red wine 6 months in oak used barrels

WINE-GROWING AREA

Without D.O., Manchuela Area

GRAPE VARIETY

Bobal 100%

SOIL AND VINEYARD

More than 80 years old vineyard, planted by Ivan's grandfather, transmitted from generation to generation which represents the join of men, of the earth and the cosmos through strains. This is our way of understanding the biodynamic philosophy, from the energy, applying alternative therapies to the vineyard.

WINEMAKING

It's a 100% natural wine, made without any additives, without sulphites added, where raw expresses itself the way it chooses. First of all, with manual harvest, this allows selection in the field. The fermentation is handled in small tanks of 5 HL and 2-3 manual "pissage" daily and presence of entire bunch. The grape-pressing is carried out in a vertical press. The malolactic fermentation takes place in used barrels, as well as ageing for 6 months. Finally, after a light filtration, the wine is bottled. It's an elaboration without fining agents neither cold stabilization; sediments can appear in the bottle.

WHY GRATIAS?

...gratias is born as a gratitude to all these people who have helped us in our enological lives: family, friends, masters, from whom we keep highly valuable memories and have helped us to make our dream come true.

ETHICAL WINE

For us it means the wine which is cultivated, made and sold from the respect, honesty, happiness and hope of all those people who work with us and those who will drink it.

We develop a responsible project, conscious and respectful with society and the environment.

WHY SOY?

Soy is the coherence between thinking, feeling and doing in the same direction. The specific is expressed when the circle twists on itself to give place to the "Infinity" symbol, that express itself in this case as the fermented grape, wine.

TASTING AND GASTRONOMY

Tasting: Wine of high vibration, full-bodied and high brightness. Fruity in nose and in mouth, that gives freshness and elegant tannins.

Gastronomy: Ideal in meetings, to boost the moral, to generate a good environment and to accompany conversations.

220 bottles

30 magnums approximately

This wine is suitable for vegans and vegetarians
