BODEGAS GRATIAS. FAMILIA Y VIÑEDOS
ORGANIC AND NATURAL WINES

We are gratias

Oenology, winery, viticulture...

We are a family that shares
a vision: an ethical wine,
and the winery we have created
is our way to achieve it

the winery

In our small familiar winery, we create wines in an artisanal way, minimizing intervention and always using common sense and heart to reach harmony.

We are located in Manchuela region where we are recovering and working with our local varieties to enhance our special values. We defend our heritage keeping our old, dry farming bush vines, also managing them in a sustainable way. We invite people to share our passion for making wine through visiting our winery. Also we are "children friendly" so we offer an unforgettable family experience.

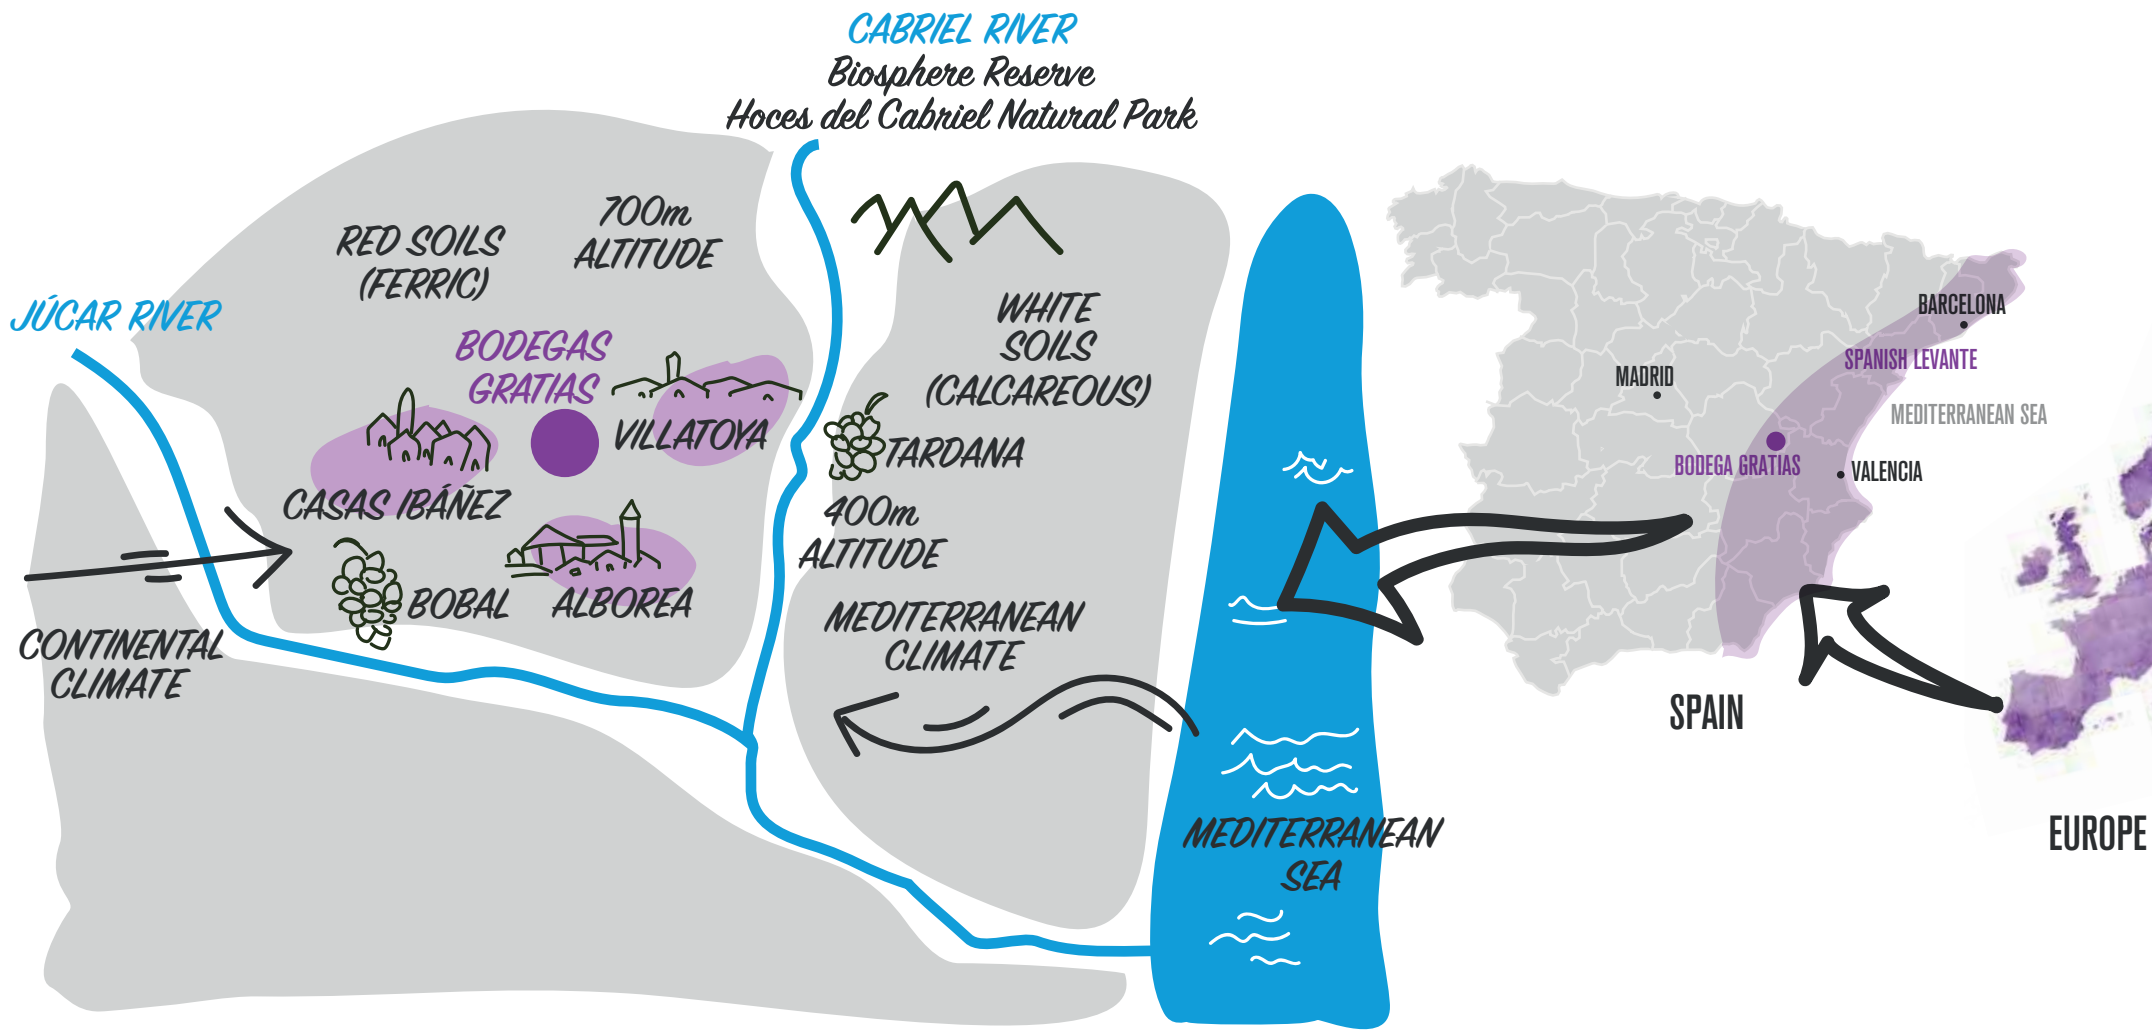

*deep respect for:
the land,
the people,
the wine, the
grape, the
wine, for you,
for me, for
everything*

*high vibration wines
alchemy,
purpose
and energy,
natural and
biodynamic*

*minimizing the use of
additives
"mind and
body healthy
after
enjoying
gracias
wines"*

Location Located in the Spanish Levante, in Manchuela region (Casas Ibáñez, Spain) we are in the border between Valencia and Albacete, right at the confluence of the Cabriel and Júcar rivers, just 80 km away from the Mediterranean, in between 3 towns: Villatoya, Alborea and Casas Ibáñez.

Villatoya Next to the river bed, it is about 400 meters above sea level, and white soils (limestone) predominate with horizons of gravel and clay, this is the place where we grow the Tardana.

Alborea and Casas Ibáñez This area is up to the river, more than 700 meters altitude. Its soils are mostly red (ferric) clay and limestone and with several deepness. In this landscape is where we grow Bobal grapes.

Climate Continental climate typical of the central plateau of the Iberian Peninsula, with very cold winters and hot, dry summers, but softened due to its proximity to the Mediterranean Sea.

Wine making

Each plot ferments separately with its own yeasts, always respecting the origin as much as possible. Different aging time in the winery, use of jars, barrels and stainless steel depending on the needs of each wine

Wine making

Before finishing the fermentation in the tank, the wine is bottled and finishes its wine making in the bottle itself. After the winter, the bottles are disgorged one by one and filled with the wine itself.

Singular Wines

AMPHORA

i

Wines made in small handmade clay jars, the container that has always been used in the area to make wine

TERRA
Tardana

Wine making

Orange wine fermented and aged with its skins in a jar.
