

mac

MAC

White wine made by skin contact and carbonic maceration

WINE-GROWING AREA

Without D.O. Manchuela area

GRAPE VARIETY

Macabeo 100%

SOIL AND VINEYARD

Old Macabeo vineyard grown in chalky and clay soil. This vineyard is located at the top of a small hill with a slight slope and facing west. Limestone appears and we can also find angular stones on the surface.

WINEMAKING

It is a kind of carbonic maceration elaboration, with minimal intervention. Whole bunches are covered directly during the harvest in 1000L tanks. We crash the bunches at the base so that fermentation starts as quickly as possible and the bunches are protected by the carbon dioxide generated during fermentation. The tank is closed and left untouched for 21 days. It is stripped, destemmed and pressed to finish the fermentation in stainless steel. Aging is also carried out in stainless steel and in 54L demijohns.

WHY GRATIAS?

...gratias is born as a gratitude to all these people who have helped us in our enological lives: family, friends, masters, from whom we keep highly valuable memories and have helped us to make our dream come true.

ETHICAL WINE

For us it means the wine which is cultivated, made and sold from the respect, honesty, happiness and hope of all those people who work with us and those who will drink it. We develop a responsible

project, conscious and respectful with society and the environment.

WHY MAC?

MAC is the abbreviation for "macabeo" and this is the way to identify in the winery the "maceration".

The symbol "Q" identifies our surprise when we tried this wine for the first time, leaving us perplexed and unable to compare it to anything we had tasted or elaborated before. It is a unic wine Pure expression of the freshness of the Maccabee.

TASTING AND GASTRONOMY

Tasting: Wine of amber color due to the slight maceration during fermentation. Very fresh, citrus nose, reminiscent of freshly cut grass and squeezed orange. The palate is long, very vibrant and generous acidity. Gastronomy: Wine to drink with nuts, salted fish and good conversations.

This wine is suitable for vegans and vegetarians
