

grys

GRYS

White wine, grys de grys aged in demi-john

WINE-GROWING AREA

Without D.O. Manchuela area

GRAPE VARIETY

Coloraillo 100%

SOIL AND VINEYARD

Old pie franco vineyard. Clay and calcareous soil. Bio vinegrowing.

WINEMAKING

Minimal intervention winemaking process. After the hand harvest in small cases, the grapes are directly pressed. Fermented in stainless steel tank and aged in glass demi-john. Bottled unfinned and unfiltered.

WHY GRATIAS?

...gratias is born as a gratitude to all these people who have helped us in our enological lives: family, friends, masters, from whom we keep highly valuable memories and have helped us to make our dream come true.

ETHICAL WINE

For us it means the wine which is cultivated, made and sold from the respect, honesty, happiness and hope of all those people who work with us and those who will drink it. We develop a responsible project, conscious and respectful with society and the environment.

WHY GRYS?

This wine is called Grys because is made with a "grys" grape varietal, neither white nor red. At harvest time the grapes are like a rainbow of different tones for red and yellow colours. There are many "grys" grape varietals in the Mediterranean: Grenache grys, Carignan grys, xarel.lo vermell...

TASTING AND GASTRONOMY

Tasting: Intense yellow with gold reflects. In the nose we can smell summer fruits and astonishes the sharpened acidity and full bodied texture..

Gastronomy: GaStronomic white wine suitable for sharing with friends in a long meal. Also pairs fine with Pasta al aglio, rices with poultry, salting fish and grilled vegetables...

This wine is suitable for vegans and vegetarians
